Victims' Rights Conference

"Rebuilding Lives"

Victim Assistance Programs, a component of Community Service Programs, Inc. (CSP), has been serving victims of crime since 1978, providing innovations in victim services that have received both State and National recognition.

The annual CSP Victims' Rights Conference offers cutting edge education tracks for professionals and community members who work with crime victims, enhancing their ability to provide outstanding services to survivors. The conference also features a Community Service Awards Luncheon which pays tribute to those who advocate for victims' rights throughout Orange County.

We need your help to continue this important event. Sponsorship of the event will allow you to contribute to the ongoing education of victim service professionals and provide direct assistance to crime victims.

Please consider the following sponsorship opportunities:
